

Free Climote Heating Control Offer

Terms & Conditions

- The offer applies to new and existing domestic SSE Airtricity Electricity or Dual Fuel customers (where both gas and electricity are supplied to the same address).
- We will contact you after the 14 calendar day cooling off period with details on how to book your installation.
- While the vast majority of houses are suitable, there are a small percentage that are not. If your house is not suitable, we will contact you to discuss other available offers.
- If you are currently renting your home, you should seek the permission from your landlord prior to installation.
- The mobile portion of the Climote controls, which allows you to control your heating from your smartphone, by text message mobile app or computer, requires a yearly subscription fee. SSE Airtricity will happily pay this on your behalf for the duration of this contract. Each subsequent year however will have a service fee payable directly to Climote. This is currently €19 per year.
- Installation of your Climote must be scheduled prior to 30 April 2017 and any Climote related queries will be managed by Climote Customer Service.
- For full terms and conditions visit climote.ie
